

MARQUESA DRAG PERFORMANCE

MA12 | MA16 | MA20 | MA20T | MA30 | MA30T

Marquesa™

MARQUESA LINE CAPACITY

MODEL	MONO CAPACITY	BRAID CAPACITY	GEAR RATIO
MA12	270 yds. / 15 lb.	270 yds. / 50 lb.	6.1:1
MA16	290 yds. / 20 lb.	400 yds. / 50 lb.	6.1:1
MA20	300 yds. / 25 lb.	530 yds. / 50 lb.	6.1:1
MA30	320 yds. / 30 lb.	670 yds. / 50 lb.	6.1:1
MA20T	360 yds. / 20 lb.	530 yds. / 50 lb.	6.1:1
MA30T	450 yds. / 20 lb.	670 yds. / 50 lb.	6.1:1

THE SAILFISHERMAN'S BEST FRIEND
Top bar and adjustable clicker tension control make it the perfect kite fishing reel for sailfish

NEW FOR 2010

Marquesa™

by FIN-NOR®

Fin-Nor sets the trend: lighter, faster and stronger.

Fin-Nor's newest reel series is the ultimate offering of precision, strength and refinement. Marquesa is ideal for fishing the new, thinner braided superlines in a new platform design that is lighter, faster, and stronger than anything you've ever seen on the water.

Marquesa is precision-machined from 6061-T6 aluminum, and features one of the strongest drag systems ever put into a reel – stronger in fact than many “international type” reels that are much bigger and heavier.

The Marquesa series comes in two model types: a topless model for easy spool access and control, and a model with a top bar that kite fishermen will especially appreciate. Kite fishermen will also appreciate the dial that allows custom adjustment of clicker tension. The top bar models are perfect for challenging sailfish and the techniques needed to catch them.

Marquesas are the perfect reels for tournament fishing or stand-up fishing with newer stronger lines and fishing techniques. Marquesa is big fish stopping power in a very refined package.

Precision-Machined Aluminum

Forged, and then machined for precision from the finest 6061-T6 aircraft-grade aluminum for perfect tolerances and unmatched strength.

Topless Open Frame

Open frame design is available on the 12, 16, 20 and 30 sizes to allow easy access to the spool – perfect for added control when casting and when live-bait fishing.

Carbon Fiber Drag

Marquesa's carbon fiber drag provides up to 41 pounds of smooth running drag (MA20 / MA30). No other reels of this size offer such a powerful drag system, so you can confidently go after as big a fish as you can stand up on.

Fast 6.1:1 Retrieve Ratio

With and extended gear box, Marquesa makes no sacrifice in power and can still pick-up 51 inches of line with each turn of the handle (MA20 / MA30), creating the perfect reel for fast sailfish, kingfish, white marlin and wahoo.

Ergonomic Handle Knob

The oversized handle knob on Marquesa reels gives more than enough to hang on to during a long big-fish fight – and for a comfortable feel when quickly cranking while vertical jigging.

Adjustable Lever Drag

Marquesa reels get up to 18 pounds of drag at strike, and still offer complete free spool (MA20 / MA30) and provide maximum drag of up to 41 pounds, letting you pull back as hard as you want on the biggest fish you find.

Machined Top Bar

Available on the MA20T and MA30T only, the top bar helps to manage line when trolling or kite fishing.

Adjustable Clicker

Lets anglers custom adjust free-spool clicker tension – perfect for live bait and kite fishing.

One-Piece Aluminum Frame & Palm Plate

The integral frame and left palm plate make Marquesa reels as strong as many “international type” reels that are much bigger and heavier. This design provides the confidence you need to stand up and fight big fish with comfort and control.
